

ANGLER ALERT

Yellowstone National Park

Adult mudsnail

Mudsnails are tiny and attach easily to boots and gear

STOP AQUATIC HITCHHIKERS!™

New Zealand mudsnails exist in these waters and are damaging Yellowstone's ecosystem.

Prevent the transport of nuisance species.

Clean all recreational equipment,
particularly waders and boots.

www.ProtectYourWaters.net

When you leave a body of water:

- Remove any visible mud, plants, fish, or other animals before transporting equipment.
- Eliminate water from equipment before transporting.
- Clean and dry anything that comes into contact with water (boats, trailers, equipment, clothing, dogs, etc.)
- Never release plants, fish, or other animals into a body of water unless they came out of that body of water.
